ALTURA MAXIMA MALBEC

Passion, persistence and ruthless determination to plant the world's highest elevation vineyard led Donald Hess to the Salta region of Argentina to plant Malbec in a estate vineyard he name "Altura Maxima" Maximum Height.

VARIETAL DESIGNATION: Altura Máxima Estate Vineyard

ALTITUDE: 3111 metres

VITICURAL AREA: Upper Calchaquí Valleys, Salta, Argentina

SOIL TYPE: Calcareous and Granite

TOTAL PLANTINGS: 23 acres, sustainably farmed

YEAR PLANTED: 2007

HARVEST DATE: April 2015

TONS HARVESTED: 10 tons

TIME IN BARREL: 24 months

VARIETY: 100% Malbec

PRODUCTION: 27 barrels

With the Andes as the backdrop and close to the borders of Bolivia and Chile, the Salta region of Argentina is less accessible than better know wine regions in the country - some have called the area "impenetrable".

The true expression of terroir in this Malbec comes from the extreme altitude at which the vineyard sits, it receives much more sun, much less UV protection, producing thicker skinned grapes that deliver a more robust mounthfeel supported by fresh acidity.

Since 2005, Winemaker Thibaut Delmotte has crafted wines of distinction and international acclaim for Bodega Colomé while staying true his French origins.
